Case #: 15-00817

Time [redacted] of occurance.

During the evening of Sunday. Approximately 8:30pm. At Kevin Kramer's apartment on Gooding st in LaSalle, Our daughter, myself + Mr Kramer were at his house. I was supervising visitation between Kevin + Madeline. I do that because I'm concerned that after Maddy has alone time with her dad, she shows sexual abuse symptoms- physical + behavior such as sexually explicit behavior (a long list of more symptoms). I witnessed Kevin fondling Madelines ~~genitals~~ through her clothes and diaper - Madeline's reaction was confused she kept looking down at his hands touching her there + back up at him. Madeline runs from her dad any time she sees him any more. I ~~expressed that this to~~ I said to Kevin "So the reason why Madeline is showing sexual abuse symptoms after being with you is because you are touching her private inappropriately- and his response was "So, you making a big deal out of it & worse, why can't you just be cool."

I have read the above statement consisting of 1 pages and attest that it is a true and accurate account of the events which took place on or about [redacted]. It was given to me voluntarily, without any fear of threat of promise of reward.
